

TABLE OF CONTENTS

ENERGY EFFICIENCY AND RESOURCE-SAVING TECHNOLOGIES

1. **Hrudkina N. S., Kuznetsov M. M., Pashynskiy V. V.**
Improvement of technology design in precision forging process based on development of energy method with power balance 9

MATERIAL SCIENCE IN THE TEXTILE, CLOTHING AND FOOTWEAR MANUFACTURING INDUSTRIES

2. **Arabuli S. I., Arabuli A. T., Truba V. S., Levytska D. R.**
Investigation of textile materials shielding properties to the effects of ultraviolet radiation 19
3. **Borshchevska N. M., Pervaia N. V.**
Determination of the influence of laser engraving on the hygienic properties of natural leather for shoe uppers and leather goods 29
4. **Yelina T. V., Halavska L. Ye**
Ergonomic characteristics of knitwear dependent on it's geometry 40

CHEMICAL AND BIOPHARMACEUTICAL TECHNOLOGIES

5. **Vakhitova L. M., Plavan V. P., Shologon V. I., Kalafat K. V., Taran N. A., Bessarabov V. I.**
Increase of the fire retardant efficiency of intumescent epoxy coatings by intercalated graphite compounds 55
